

DIGESTER

Enzyme Based

Grease Trap & Drain Maintainer

Legend Digester is ideal for maintaining grease traps and drainage pipes. Digester's natural enzymes break down grease and fat deposits throughout the drainage system eliminating their build up and potential blockages. Digester needs to be diluted before use and can be applied via an auto-dosing unit or by hand.

Pack size: 4x5L Code: LEGM-AD0060-4N

Grease Traps

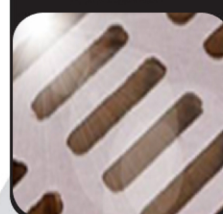

Drainage Pipes

Sink Drains

Drains

How To Use

Via Dosing unit or pour by hand

Application Rate: 150ml per day

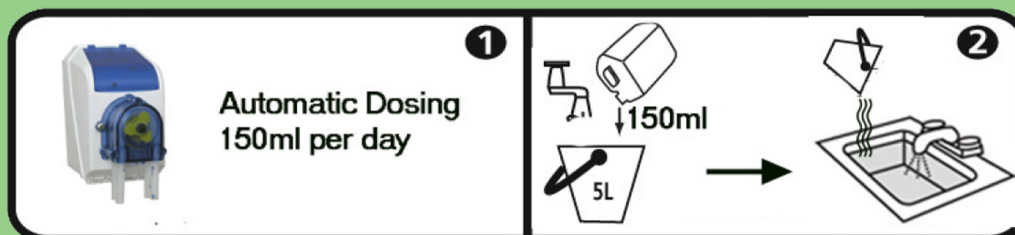

For the first week apply a dose of 250ml per day. From week 2 reduce the dose to 150ml per day.

The dose should be introduced into the head of the drainage system or immediately before the main entry point of the organic waste.

Manual applications should be carried out by mixing the product in 5 litres of warm water and then pouring down the appropriate sink.

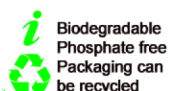

Automatic dispensing should be time-set for one hour after kitchen shut down and injected directly into the line. Where possible, avoid direct use of concentrate disinfectants, bleaches, detergents and biocides, which may adversely affect the bio film.

Fully biodegradable, presents no effluent problems.

HEALTH & SAFETY

Please refer to the MSDS for full health and safety information.

Biodegradable
Phosphate free
Packaging can
be recycled

DO NOT INGEST
DO NOT MIX WITH OTHER CHEMICALS
KEEP OUT OF REACH OF CHILDREN
