

## HD OVEN CLEANER

HD Oven Cleaner is the professionals choice for cleaning commercial ovens, grills, hot plates and barbecues. A fast and effective oven cleaner, yet simple to use. The product is supplied as a ready to use formulation. HD Oven Cleaner is highly effective at removing oil, grease and burnt on food deposits.

Pack size: 2x5L Code: LEGM-AO0120-2NEX  
6x1L Code: LEGM-AO0124-SSN

**WARNING: HD OVEN CLEANER IS NOT SUITABLE FOR USE ON SOFT METALS SUCH AS ALUMINIUM OR ZINC**

### How To Use

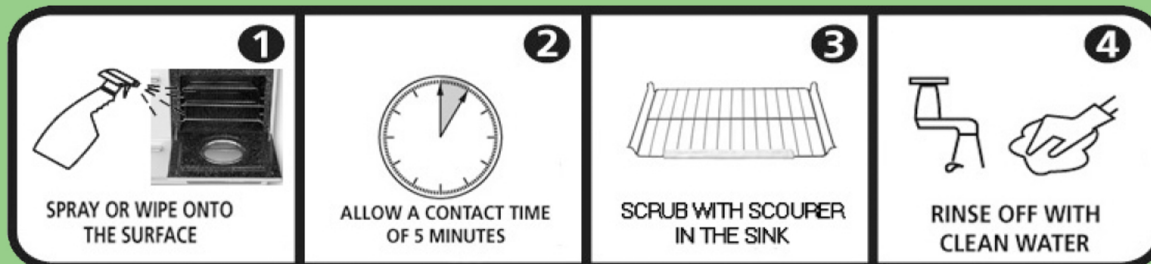

Use HD Oven to efficiently remove heavy grease and carbon deposits from commercial ovens, grills, hot plates and barbecues.

#### For Best Results:

HD Oven Cleaner is most effective when applied to a warm surface, before cleaning pre-heat the oven to 40 - 50°C. To catch the drips from the oven door, place a suitably sized piece of cardboard or a drip tray in front of the oven, before applying the HD Oven Cleaner.

Spray the HD Oven Cleaner onto the inside surfaces of the oven and allow a contact time of at least 5 minutes before cleaning. Use a scraper and scouring pad to clean the oven surfaces. Rinse off with clean water.

Oven racks should be removed to a sink area and scrubbed using a scouring pad. Thoroughly rinse with clean water before replacing the racks in the oven.

**WARNING: HD OVEN CLEANER IS NOT SUITABLE FOR USE ON SOFT METALS SUCH AS ALUMINIUM OR ZINC**
