

## FABRIC SOFTENER

Fabric Softner is a fabric conditioner for use in professional auto-dose programmes and hand washing. Fabric Softner eliminates static cling, leaves a pleasant silky fragrance and replenishes softness in fabrics, providing softer and fresher laundry. Fabric Softner Premium is intended for use in care homes and hotels.

Hand Washing

Care Homes

Hotels

### How to Use

Fabric Softener is designed to provide washed linen with softness and outdoor freshness. It contains a pleasant silky fragrance and will eliminate static cling in tumble dryers. Less creases can make ironing easier.

### Dosage Rate:

Between 5-10ml per 5L of rinse water.

Use through an automatic dosing unit. The dosage rate should be correctly set for the size of the machine and water hardness. If hand washing, rinse garments thoroughly and add Fabric Softener to the final rinse water. Allow to soak for a few minutes before extracting the water and drying.

### HEALTH & SAFETY

Please refer to the MSDS for full health and safety information.
