

HYPOCHLORITE DESTAINER

Legend Hypochlorite Destainer is a low temperature destainer specially formulated for professional auto-dose programmes only. It is designed for use in care homes, hotels and commercial on premise laundry. This high strength destainer removes stubborn bleachable stains including tea, coffee and wine. Hypochlorite Destainer is not for use on coloured washes and has a maximum wash temperature of 40°C

Pack size: 10L Code: AB0164
20L Code: AB0164

How to Use

Hypochlorite Destainer is designed to remove stubborn bleachable stains including tea, coffee and wine. Hypochlorite Destainer is only suitable for washing white linen. Hypochlorite Destainer is ideal for use for washing hotel white bed linen and table linen.

Dilution Rate:
3ml per 1Kg of dry laundry.

Hypochlorite Destainer should only be used with professional auto-dose programmes. The dosage rate should be correctly set for the size of the machine. Use in conjunction with Liquid Laundry Detergent and Fabric Softener. Dirty laundry should be sorted into similar wash types. Select the correct wash temperature for the type of load. Hypochlorite Destainer is most effective at temperatures below 40°C. Do not use Hypochlorite Destainer for pre soaking or hand washing. Do not decant into other containers. Hypochlorite Destainer is an oxidising agent and must only be sealed with breather caps. Care must be taken when changing over containers. Wear rubber gloves and eye protection.
