How to Use

Laundry Destain Powder contains oxygen release agents to remove stubborn bleachable stains including tea, coffee and wine. Safe to use on mixed coloured wash loads and safe to use to wash all types of linen including cottons, polyester and synthetic fibers.

Laundry Destain Powder is ideal for use in Care homes, hotels and commercial on premise laundries.

Dilution Rate:

1-3 scoops (60-180gm) per wash

Machine Washing:

For use as a laundry boost. Add to the main wash compartment (hopper or directly into the machine if skipping pre-wash) at a rate of:

Domestic type machines: 1x60gm scoop

Top loaders: 3x60gm scoops

Commercial front loaders: (7-9kg machines) use 2-3 60gm scoops

For best results: Wash at 60°C and use with Legend Fabric Softener.

Soaking:

Simply dissolve the powder in warm water at a rate of 1x60gm scoop per 5 litres of warm water. Immerse the garments/linen in the solution and leave to soak for up to 12 hours before hand/machine washing and rinsing off with clean water.

Do not soak silk, wool, leather, garments with metal fasteners or any article with a flame retardant finish.
