

LOW TEMPERATURE DESTAINER

Legend Low Temperature Destainer is designed for professional auto-dose programmes only in care homes, hotels and commercial on premise laundry. Low Temperature Destainer is specially formulated to start working from 20°C to remove stubborn bleachable stains including tea, coffee and wine. Low Temperature Destainer is safe to use on coloured washes, saves on heating costs and performs a shorter wash cycle.

Pack size: 10L Code: LEGM-AI0010

How to Use

Low Temperature Destainer is designed to remove stubborn bleachable stains including tea, coffee and wine. Safe to use on mixed coloured wash loads and safe to use to wash all types of linen including cottons, polyester and synthetic fibers.

Dilution Rate:
5-8ml per 1Kg of dry laundry

Low Temperature Destainer should only be used with professional auto-dose programmes. The dosage rate should be correctly set for the size of the machine. Use in conjunction with Liquid Laundry Detergent and Fabric Softener. Dirty laundry should be sorted into similar wash types. Select the correct wash temperature for the type of loads. Low Temperature Destainer is effective between 20-40 degrees centigrade.

Do not decant into other containers.

Low Temperature Destainer is an oxidising agent and must only be sealed with breather caps. Care must be taken when changing over containers, wear rubber gloves and eye protection.
