

PEROXIDE DESTAINER

A high temperature, high strength Destainer, specially designed for use with professional auto-dose programmes. Removes stubborn bleachable stains including tea, coffee and wine. Safe to use on coloured washes. Suitable for hot washes up to 100°C. Used in care homes, hotels and commercial on-premise laundries.

Pack size: 10L Code: LEGM-AH0041
20L Code: LEGM-AH0042

How to Use

Peroxide Destainer is a highly concentrated, high temperature laundry destainer. It is specially formulated for use with professional auto-dose programmes. Peroxide Destainer is designed to remove stubborn bleachable stains including tea, coffee and wine. Safe to use on mixed coloured wash loads and safe to use to wash all types of linen including cottons, polyester and synthetic fibers.

Dilution Rate:
5ml per 1Kg of dry laundry.

Peroxide Destainer should only be used with professional auto-dose programmes. The dosage rate should be correctly set for the size of the machine. Use in conjunction with Liquid Laundry Detergent and Fabric Softener. Dirty laundry should be sorted into similar wash types. Select the correct wash temperature for the type of load. Peroxide Destainer is most effective at temperatures above 55°C. Do not use Peroxide Destainer for pre soaking or hand washing. Do not decant into other containers. Peroxide Destainer is an oxidising agent and must only be sealed with breather caps. Care must be taken when changing over containers. Wear rubber gloves and eye protection.
