How to Use

Radiant is a biological laundry powder. Radiant will remove bleachable and biological stains including blood, food, tea and coffee. It is suitable for hot, warm and low temperature washes. A non-biological powder is also available.

Machine Washing:

Add to the main wash compartment (hopper or directly into the machine if skipping pre-wash) at a rate of:

Domestic type machines: 1-2x60g scoop

Top Loaders: 3x60g scoops

Commercial Front Loaders: 7-9kg machines 3-4x60g scoops.

For best results: Wash at 60°C and use with Legend Fabric Softener.

Soaking:

Simply dissolve the powder in warm water at a rate of 1x60g scoop/5 liters.

Immerse the garments/linen in the solution and leave to soak for up to 12 hours before hand/machine washing and rinsing off with clean water.

Do not soak silk, wool, leather, garments with metal fasteners or any article with a flame retardant finish.

HEALTH & SAFETY
