How To Use

Microclenz is an alcohol based hand sanitiser. Microclenz is ideal for use in food service areas, kitchens, hospital wards, GP surgeries, leisure centres and schools.

Directions for Use:

For best results ensure hands are visibly clean and dry. Add a small amount of the sanitiser onto the palm and rub handstogether ensuring that palms, fingernails, thumbs and wrists are fully coated before the product fully evaporates.

Note: Hand sanitiser does not replace the need for normal hand washing with a good quality soap that conforms with Cosmetic Regulations.

HEALTH & SAFETY

Please refer to the MSDS for full health and safety information.

DO NOT INGEST

DO NOT MIX WITH OTHER CHEMICALS
KEEP OUT OF REACH OF CHILDREN
