

## MACHINE DESCALER

Machine Descaler is safe to use on stainless steel and aluminium surfaces. A heavy duty limescale remover, Machine Descaler has been designed for use in dishwashers, glasswashers, Bain Maries, kettles and tea and coffee urns.

Pack size: 2x5L Code: LEGM-AG0340-2NEX

### Ware Washers

### Urns

### Bain Marie

### Kettles

### How To Use

#### For Best Results

#### Dilution Rate:

120ml-per 5L of water.

**Dishwashers & Glasswashers:** If possible switch the detergent dosing unit off or remove the detergent pipe from the container. Switch the machine on. Once filled with water, pour Machine Descaler directly into the machine.

Front loading machines will require between 300-500ml of Machine Descaler.

Pass through machines will require between 500ml and 1L of Machine Descaler.

Heavily scaled machines may require 2-3 cycles. To rinse, empty the machine, fill with fresh water and put into a wash cycle. Do this twice to ensure the machine is rinsed correctly.

Before re-use ensure the detergent pipe is replaced in the detergent bottle.

**Urns / Bain Marie:** Fill the Urns / Bain Marie with hot or cold water to the correct level. Add Machine Descaler at the rate of 120ml per 5L. Switch the Urn / Bain Marie on to heat up to boiling point. Switch off. Allow to soak in the solution for up to 15 minutes. Carefully drain off the solution. Rinse thoroughly with fresh water before use.

#### HEALTH & SAFETY

Please refer to the MSDS for full health and safety information.

DO NOT INGEST

DO NOT MIX WITH OTHER CHEMICALS
