

MACHINE GLASSWASH DETERGENT

Machine Glasswash Detergent is suitable for use in all makes of commercial glasswashers. It has been designed to be used through automatic dosing equipment. Machine Glasswash Detergent is suitable for use in both hard and soft water conditions. Machine Glasswash Detergent will remove beer residues and finger marks but will not affect beer head retention. Machine Glasswash Detergent is non-foaming.

Pack size: 2x5L Code: LEGM-AG0020-2NEX

How To Use

Machine Glasswash Detergent is highly concentrated and suitable for use in both hard and soft water areas. Designed for use in cabinet glasswashers fitted with automatic dosing equipment. Effectively removes proteins and sugars from drinking glasses.

For Best Results:

Dilution Rate:

Soft water 2ml/L

Medium-hard water 3.5ml/L

Hard water 4ml/L

Wear eye protection and gloves whilst carefully placing the detergent tube inside the container, making sure that the tube goes right to the bottom of the container. Ensure the automatic dosing unit is switched on. For best results ensure the automatic dosing unit is correctly set for the water condition. If the glasswasher is fitted with a water softener ensure it is regenerated on a regular basis with granular salt.

DO NOT USE FOR WASHING BY HAND
