

MACHINE RINSE AID

Machine Rinse Aid is suitable for use in all makes of commercial dishwashers and glasswashers. It has been designed to be used through automatic dosing equipment. Machine Rinse Aid is suitable for use in both hard and soft water conditions, and is low foaming. Machine Rinse Aid promotes the rapid drying of washed crockery and cutlery. It eliminates hard water spotting and is economical to use.

Pack size: 2x5L Code: LEGM-AM0440-2N 10L Code: LEGM-AM0441
4x5L Code: LEGM-AM0440-4N 20L Code: LEGM-AM0442

How To Use

Machine Rinse Aid is designed for use in the final rinse programme of cabinet dishwashers and glasswashers. It is formulated to provide spot free results to washed crockery, cutlery and glassware. Machine Rinse Aid is fully biodegradable, presenting no effluent problems.

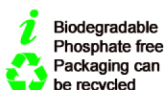

Dilution Rate:
2ml per liter of water.

Wear eye protection and gloves whilst carefully placing the rinse aid tube inside the container, making sure that the tube goes right to the bottom of the container. Ensure the automatic dosing unit is switched on and that the automatic dosage rate is correctly set. For best results use in conjunction with Legend Machine Dishwash Detergent or Legend Machine Glasswash Detergent.
