

BD500

Hygienic Washing Up Liquid

Legend BD500 is a washing up liquid used for the hygienic cleaning of crockery, cutlery, pots, pans and food preparation equipment. Use of a professional hygienic washing up detergent is an important aid to microbial control.

Pack Size: 4x5L code: LEGM-AB0020-4N

How To Use

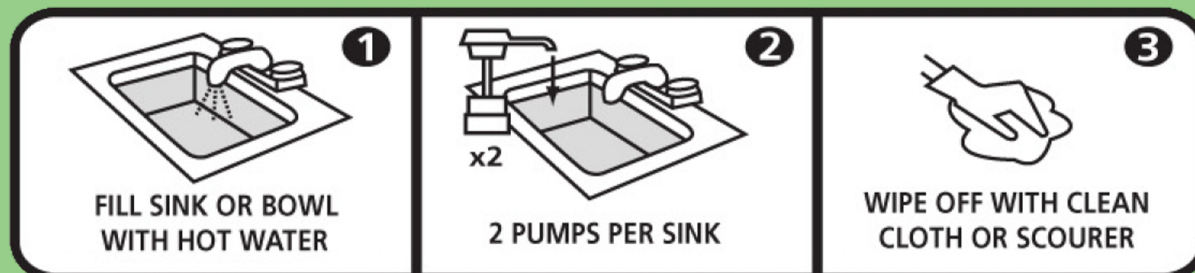

BD500 is a hygienic neutral detergent, ideal for sink washing of pots and pans. BD500 is specially formulated to remove cooking oil, fats, food residue and general soiling from cooking utensils.

Fully biodegradable, presents no effluent problems.

DIRECTIONS:

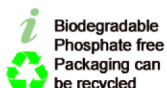

Dishwashing: Dilute up to 300:1

Manual Cleaning: Dilute up to 100:1
